

POLELED

FLAGPOLE ILLUMINATION

POLELED BASIC

available in:

white 9010

grey 9006

black 9005

any other RAL colors on request.

MORE VISIBILITY BY MOVEMENT AND LIGHT

Using flags and banners is THE way to be better visible. The continuous movement catches the eye, and the attention of passing audience is naturally drawn to it.

Recently scientific research has proven that movement in combination with light creates the highest visual attention value. Do you want your flags and banners to also be visible in the dark? In a responsible and special way making optimal use of energy and light? Then Poleled has the best solution.

PoleLed provides a system that enables you to illuminate flags and banners in a unique and very special way. A system that blends in perfectly with the flagpole and makes your flags and banners strikingly visible for (potential) clients, 360° and 24/7. In addition, national flags may be officially raised 24/7 (flag protocol).

HOW DOES IT WORK

This unique lighting system contains of power LEDs which are arranged around the pole in a circular unit. Because of this circular setting, it doesn't matter from which angle the wind is coming: the flag or banner is always fully illuminated. The powerful CREE LEDs create a clear and uniform light distribution. The PoleLed lighting unit is applicable to almost every type of existing and new poles, both made of wood, aluminum, and polyester, either conical or cylindrical.

The unit is made of aluminum and is delivered including terminal connectors and a power supply. Once the system is installed, theft is virtually impossible.

The PoleLed lighting unit is patented and has been developed focusing on sustainability and energy efficiency.

SPECIFICATIES

Power	25 Watt
Light output	2300 lumen
Voltage	230 volts using supplied power supply
Lifetime LEDs	+35,000 hours
Material	Aluminum
Number of LEDs	12 pcs CREE
Lighting color	5000 Kelvin
Angle	11° and 20°
Cable length	7 m
Size	23x18 cm
Warranty	2 years
Pole	Suitable for poles with a diameter up to 115 mm ø

SPECIFICATIES

Power	45 Watt
Light output	5000 lumen
Voltage	230 volts using supplied driver
Lifetime LEDs	+35,000 hours
Material	Aluminum
Number of LEDs	10 pcs CREE
Lighting color	5000 Kelvin <small>(different color temperatures possible on request)</small>
Angle	11° and 20°
Cable length	10 m
Size	26x21 cm
Warranty	2 years
Pole diameter	Suitable for poles with a diameter up to 145 mm ø
